

Suncrest Psychological Services, LLC is recruiting in Lafayette, Indiana for Licensed Psychologists with a Health Service Provider designation eligible Post-Doctoral Psychologist seeking placement and supervision to complete licensure. **This position is an independent contractor position**

We offer an established client base in addition to flexible scheduling based on your availability and preference from 1-5 days per week at a set rate. This is a specialized position working with first responders. Experience with this population is preferred, but ride-alongs and additional training experiences can also be arranged. Trauma experience, particularly with evidence-based treatments such as CPT and EMDR are helpful.

Days would consist of primarily individual therapy within a specific population of first responder organizations (police, fire, EMS, dispatch, and corrections) seen on contract and/or insurance. There would be additional option to see couples or children of first responders, though this isn't required. Pre-employment evaluations are also possible, based on experience and interest. Responding to Critical incidents in a timely manner and supporting departments through these events are also possible. In addition to the established client base, we provide a peaceful and safe working environment with office space, and assistance with any billing needs. Scheduling can be done individually by the applicant or can be done directly by patients through the electronic medical record. No need to market, deal with insurance, or hassle with trying to collect payment.

Dr. Dardeen has been in private practice since 2017 and has contracts with 15 local police and fire agencies. This could be a full or part time contract position.

If you are interested, please send your resume to drdardeen@suncrestpsychologicalservices.com or fax to (765) 607-1483. We look forward to hearing from you!

Applicants must hold a current license in Indiana as a Psychologist with a Health Service Provider designation or be an eligible Post-Doctoral Psychologist seeking placement and supervision to complete licensure. Must have a laptop computer and computer/word processing skills.
